

HOCKEY by BAUER

Central Wisconsin's #1 Summer Hockey Development Program!

● ***Our 18th Summer Season of Small Games & BIG Results*** ●

Proven Format

WE GUARANTEE FUN! HbB's small game approach provides players with that missing link to the crucial development that "rat hockey" supplied in the past. Our loose structured games provide a combination of high paced skill and mind development. There will be no long lines & waiting. Our games are fast moving forcing players to develop their skills while making game like decisions. **Small Area Games are a proven method to improve Hockey IQ.** Unlike a one week camp we provide the needed repetition of skills.

Best Off-Ice Program

Our off-ice stickhandling program is the best available. Our challenging circuits guarantee your hands will improve. And our competitive physical challenges will improve your competitive drive.

Our Staff

All of our head instructors are high school head or assistant coaches. It is their profession—they know how to teach the game. All are firm believers in the small game method. They are coaches—it is what they do best!
